

STAR Teams®

Services for Organ Recovery

STAR Teams® is a team of board-certified thoracic surgeons, preservationists, and coordinators committed to every aspect of organ recovery.

STAR Teams Advantages

Board Certified Surgeons

Experienced board-certified surgeons on call 24/7 365 days to provide expertise in organ evaluation and recovery

Comprehensive Organ Recovery

STAR Teams has expertise in all aspects of organ recovery including DCD organ recovery and machine perfusion

Cost Benefit

STAR Teams traveled over 400,000 miles in 2021, to procure organs for clients allowing centers to grow and save invaluable time, and resources

National Infrastructure

There are five primary STAR operation locations: Virginia, Florida, Indiana, Ohio, and New England

Experience

STAR Teams helped clients recover over 500 thoracic organs since 2019

Heart-lung block recipient patient doing great... Appreciate all the great work.

*Dr. Daniel Tang,
INOVA Heart &
Vascular Institute*

“

The heart worked really well- thanks for the great work.

Dr. David Kaczorowski, UPMC

”

“

Thanks so much for your services. Your services are like gold.

Dr. Alexander Sasha Krupnick, University of Maryland Medical Center

”

“

The efficiency of STAR Teams is striking.

Dr. Ramesh Singh, INOVA Heart & Vascular Institute

”

The STAR Teams Process

REFERRAL

The team is notified about an organ recovery

EVALUATION

The team travels to the donor's location and evaluates the organ

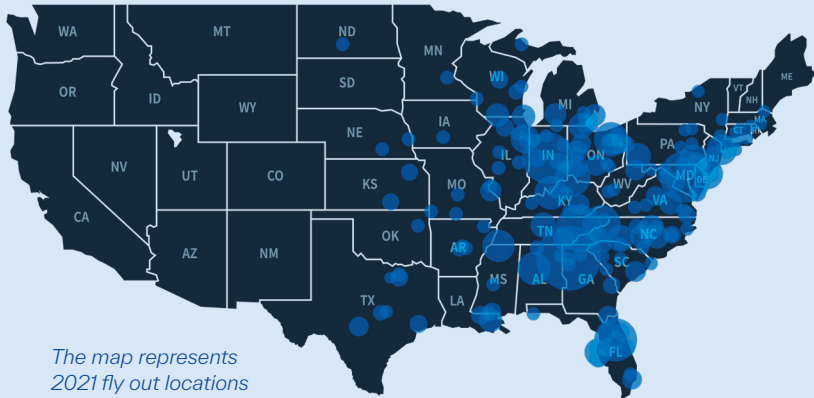

RECOVER

The surgical team recovers and preserves the donated organ

DELIVER

The team delivers the organ to the transplant center

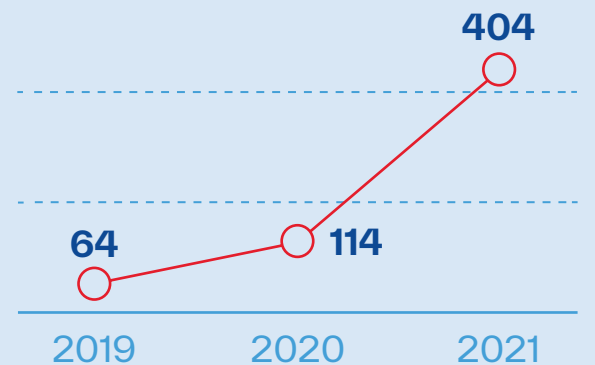

STAR Teams Organ Recovery Experience in 2021

The map represents 2021 fly out locations

Partnered with 15 transplant centers
Recovered 211 hearts and 134 lungs
Performed 404 total fly outs

STAR Teams Case Growth

Data represents number of fly outs performed by STAR Teams

“

I would love to work with you more in the future.

Dr. Jack Haney, DukeHealth

”
